

INSEL RECTIFIER (INDIA) PVT. LTD.

(AN ISO 9001:2008 CERTIFIED COMPANY)

“ Quality First...
Customer Satisfaction Above All ”

Company Overview

The Company's policy is one of continuous development and improvement of its product and therefore the right is reserved to supply product which may differ slightly from those illustrated here.

All the promoters are from the business family of semiconductors for more than 40 years. The new banner was established in the year 1986 which in fact is a brain child of its new generation professional capable of handling diverse fields of electronics & engineering goods according to customers. The qualified professionals are determined to curve excellence in the trade in terms of quality, quantity& after sales services.

The excellence of the group is evident by the fact that in a very short time frame, they have developed a wide distribution network for all over India having offices of their own at key cities and powerful testing center for maintaining the highest quality standards set by the company. The group has two hi-tech manufacturing plants of their own. The state of art technology in these plants ensures production of the best engineering goods according to customer's requirements.
